Saturday 21st March 2020

2020 Sydney Model Railway Exhibition

To all our valued exhibitors,

With the current situation in Australia and around the world, the committee has made the hard decision to cancel the 2020 Sydney Model Railway Exhibition. This is a decision we have not made lightly, and we are sure you will all understand.

Whilst the exhibition dates are still just over 6 months away, we have reached a point where we had to make a decision. With the constant changes to restrictions of non-essential gatherings and the recommendations for social distancing, and with no end date in sight, we could not see any other option than to cancel this years exhibition.

The AMRA NSW committee will be constantly watching the situation and should the situation change in sufficient time, we will look at the possibility to hold a open weekend that would include some trade stands and a few layouts depending on venue availability and timing. This is of course an option that we will not consider until such time that it is safe for our members, exhibitors and the visiting public.

This cancellation is only for the 2020 exhibition and we will be back for 2021 exhibition.

Yours in training

Damien George
Exhibition Manager
AMRA NSW
